Hello Michael,

I wanted to confirm that ARB's understanding is correct about the status of conducting and reporting the semi-annual flow audits for the particulate samplers in the Great Basin District. It is our understanding that the MLD Quality Assurance Section (QAS) is responsible for performing and reporting one of the flow audits per year and GB District is responsible for performing and reporting the other. Is this correct?

Please feel free to contact me if you have any questions.

Thank you,

Patrick Rainey
